May Birthdays

Chandler Burris 5/9
Jamie Melton 5/11

Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed.

Blessed is the man who perseveres under trial, because when he has stood the test, he will receive the crown of life that God has promised to those who love him.

—James 1:12 NIV

COUNCIL HONORS WASHAM

Congratulations Chief!

During the Kingston City Council meeting on April 11th, Mayor Tim Neal and City Manager David Bolling presented Police Chief Jim Washam with a plaque in honor of his 30 years of service with the city.

KINGSTON SPRING BLOOD DRIVE

On April 17th the Conference Room at Kingston City Hall became a temporary blood bank. Sabrina DeVault-Greene, Donor Coordinator, for the Medic Regional Blood Center “invaded” City Hall with enough staff and equipment to handle whomever and whatever showed up between 10:00 a.m. and 3:00 p.m.—and they did! Having witnessed their process on the buses we were totally unprepared for this smooth operation and very, very impressed. See Parks and Recreation Director Rick Ross giving above and a Medic employee at work.

Safety stand-downs scheduled to raise awareness of landscaping hazards in Southeast

In the last five years, 64 people employed in the landscaping industry died of workplace injuries in Alabama, Florida, Georgia and Mississippi. To bring attention to the hazards in landscaping, OSHA is teaming up with industry associations and employers to sponsor one-hour Safety Stand-Downs at worksites this week, during which supervisors and workers take a break to learn about potential hazards, including falls, being crushed or hit by objects, or electrocuted. The Associated General Contractors of Georgia, area employers, and OSHA are sponsoring the events.

TWRA BOATING TRAINING

Great Info for Boating Season!

On April 20th members of the Kingston Police Department met in the conference room at City Hall for a TWRA training session regarding boating. A main topic was using safe boating practices such as:

- Use of personal flotation devices
- Who is allowed to operate a water craft
- What to do when a boat capsizes.

- Use of alcohol (effects are enhanced due to sun, rough water, heat, etc.)
- How to properly pass another boat/water craft (right or left?)
