

Goodbye to the “Best of the Best”

After twelve years, on April 26th city employees will say goodbye to their boss, City Manager Jim Pinkerton.

The bad news came after lunch on Wednesday, March 13th with a couple of Council members, all the department heads, and many employees coming by hoping the e-mail was an early April Fools Day mistake. Many called hoping it was untrue. Many tears were shed, much pleading for a withdrawal of his resignation and finally facing the sad truth. Sadly, many won't realize what the city has lost by losing his leadership, knowledge and integrity—yet.

Getting Closer...

“City Hall” was added to the title on the new building the first week of March and work is underway to renovate space to accommodate city offices.

5 Ways to Build a Healthier Meal

Take a second to look at your plate before you put food on it. Think about the foods that offer the most nutrients for the least amount of calories. Usually, those will be fruits and vegetables. A healthy plate starts with more of these foods. Then add smaller portions of protein and grains. And don't forget the dairy! Add a low-fat or fat-free dairy food to your plate, or add one for dessert

These five tips can help you build a healthy meal:

1. **Make half your plate veggies and fruits.** Choose a variety of colors too.
2. **Add lean protein.** Include seafood, chicken, turkey, pork, lean beef, beans or tofu.
3. **Include whole grains.** Look for the words "100% whole grain" or "100% whole wheat" on the food label. Corn tortillas. Pasta. Breads. Brown rice. All of these are great grain choices.
4. **Add some dairy.** Pair your meal with a cup of fat-free or low-fat milk, soy milk or yogurt.
5. **Watch the extra fat.** Limit or avoid butter, gravy, and cheesy or creamy sauces.
